The CMA USA programme offered by Lakshya provides an opportunity for students to be certified professionals. The Certified Management Accountant (CMA) designation is a highly respected certification awarded by the Institute of Management Accountants (IMA). This is a US-based worldwide association for accountants and financial professionals working in business. The CMA USA programme includes well-researched study materials and comprehensive practice sessions. This ensures that our students are well prepared for the examinations. The CMA (USA) certification offered by the Institute of Management Accountants is globally recognised and opens up a wide range of career opportunities in organisations in various sectors and domains. They are also recipients of better financial compensations compared to their non-certified counterparts; it also provides flexibility to move across business areas. It is also well sought after due to its short completion period (12-18 months) which means that one can be a full-fledged management/cost accountant expeditiously in the most cost-efficient manner. The CMA is a two-part exam that must be passed as a prerequisite to obtain the designation. The course is subdivided into two, covering 12 competencies.

LakshyanZ

On the 7th of August 2016, we kick started a very novel initiative known as the LakshyanZ. With an even thrust on academics, cultural activities and sports, the aim was to bring out the best of each and every student and propel them towards overall excellence. LakshyanZ provides a platform for our students to re-discover and groom up their talents, interests and skills, while spreading knowledge through a fun filled experience. Apart from this, LakshyanZ also strives to create a social commitment among the students by undertaking various charitable activities. With LakshyanZ, we aim to help our students to discover a new dimension of life.
