Introduction to DipIFR

The **Diploma in International Financial Reporting (DipIFR)** is a globally recognised qualification offered by **ACCA (UK)**. With a strong, practical, and modern approach, ACCA incorporates innovation, making it the world's most forward-thinking accountancy body. Recognised in 180+ countries, it equips finance professionals with in-depth knowledge of International Financial Reporting Standards (IFRS) and their practical application in today's corporate world.

Unlike multi-year qualifications that demand years of study, DipIFR is concise and impactful. It can be completed within just three to six months and requires only a single examination. This makes it an attractive fast-track pathway for professionals seeking international recognition and career advancement without putting their careers on hold.

Eligibility:

- Commerce graduates with two to three years of accounting experience.
- Qualified professionals such as CA, CMA, CS with the experience in accounting or those fulfilled by the articleship.
- Members of IFAC bodies are also well-placed to pursue this diploma.
- Even non-commerce graduates can qualify, provided they can demonstrate at least three years of relevant accounting experience with employer certification.
- This makes DipIFR ideal for accountants, auditors, and finance professionals who are seeking international exposure and want to upgrade their skills to match global reporting standards.

Why Choose DipIFR @ IIC Lakshya?

DipIFR is valued across the world because of its relevance and recognition. As IFRS has been adopted in more than 140 countries, professionals with DipIFR instantly become part of a global talent pool. The qualification is awarded by ACCA (UK), one of the most forward-thinking accountancy bodies, adding immense credibility.

In a business landscape where MNCs, listed companies, and Big 4 firms demand expertise in IFRS, DipIFR gives professionals the edge to move ahead of their peers. It opens doors to global roles, career growth, and higher earnings, all while being a focused qualification with just one exam.
